Quotes:

We Are Leo are an insanely talented group of individuals with a sound that would please listeners of almost any age, especially the younger generation.

Great poppy radio friendly music, perfect for a hot end of summer day... Mix in a little splash of dance beats and electro elements including some nice synths on a couple tracks and you have the perfect album to amp you up out of the doldrums." Their song "Oxygen" has a total 80's new wave type flair mixed pop-rock, I hear some...

combination of Peter Gabriel meets Hawk Nelson meets Runner Runner, The song although sugary sweet, has a very hope driven message of keeping your head up in times of desperation, hopelessness, loss, and pain.
